### **What is the procedure to cancel pending orders during system failure?**

In case of Internet Based Trading System Failure due to any Reason, investors can contact us on telephone number +92-42-36309266. to avail Order Placement / Cancellation facility.

### **How do you notify clients about their order executions?**

Mostly send them the order confirmation via email containing details about their executed transactions, at the day end or courier.

### **How are my orders processed and settled via internet?**

Your orders placed through the internet (via internet based trading system) are received at the server and immediately sent to the PSX for further processing. If accepted, the order is queued for execution and upon successfully matching the rates of corresponding buyer/seller (as the case may be), it gets executed. Although transaction is done on real time basis but the delivery of the securities is received in your CDC Sub Account on the 2nd working day after the transaction has been executed (in case of buying) and vice versa in selling.

### **How do I place/cancel my orders when I am unable to login into the software?**

In case, you are unable to place/cancel your orders via internet, you may still place your orders via our telephone number +92-42-36309266.
